

ADITI JOSHI

humanity-centered design researcher

SKILLS

RESEARCH

interviewing
grounded theory
workshop facilitation
brainstorming
card sorting
prototyping

DESIGN

sketch
invision
indesign
illustrator
wireframes

TECHNICAL

html5/css3
sass
javascript
python
git

LANGUAGES

english (native)
spanish (intermediate)
hindi/urdu (novice)

EDUCATION

OLIN COLLEGE OF ENGINEERING

b.s. engineering design for social change
September 2013-May 2017
Boston, Massachusetts, USA

GLASGOW SCHOOL OF ART

mdes design innovation and citizenship
September 2017-September 2018
Glasgow, UK

Glasgow, G51 1BL, UK

PROFILE

I believe in the power of humanity centered design as a tool for social change. In my own work, I am informed by critical theory, and see my work as being informed not only by this theoretical, philosophical information, but also engaging with stakeholders and individuals who are experiencing the everyday effects of such theory. My work is feminist, anti-racist, and inclusive in nature, and I believe that it is important for design to work for everyone, not just the privileged few who can afford it.

EXPERIENCE

NGP VAN

product intern

June-August 2017, June-December 2015
Washington, DC, USA

Completed user research through surveys and web card sorting and used this research to create easily digestible personas for the rest of the company. Designed and developed new login pages for the software. Fixed several UI/UX bugs.

SHIFTING RHYTHMS

team member

September 2016-May 2017
Clarksdale, Mississippi, USA

Part of a team which designed and prototyped curriculum for a mobile space to teach guitar making curriculum in the Mississippi Delta region. Created branding for the program which was then tested with stakeholders. Applied to various grant and funding opportunities and gained over \$50,000 in funding for the enterprise.

STUTTGART HCI LAB

researcher

June-July 2016
Stuttgart, Germany

Summer researcher at the Human Computer Interaction lab in Stuttgart, Germany. Created a research plan, designed and implemented an interface for a user survey, and analyzed data to investigate uncertainty in data visualization.

EDUCATION LAB

researcher

September 2013-May 2016
Boston, Massachusetts, USA

Worked on a team of undergraduate students to investigate team meetings at Olin College. Analyzed their discourse using discourse analysis and grounded theory methods. Followed students through their college careers to determine whether their teamwork skills improved.

INSPIER UNIVERSITY

designer

August 2014-December 2014
Sao Paulo, Brazil

Traveled to and lived in Sao Paulo, Brazil and worked with professors and students at a business university to prototype and develop courses for a new engineering program.
